

MOC 10968

Designing for Office 365 Infrastructure

Module 1: The Office 365 Deployment Challenge

- ✓ Reviewing Office 365
- ✓ Introducing the FastTrack Deployment Methodology
- ✓ Getting to the Pilot
- ✓ Question the TAM
- ✓ Identify the Features and Benefits of Office 365 for the Customer
- ✓ List Possible Deployment Blockers
- ✓ Is the SFA Scenario suitable for the FastTrack Approach?
- ✓ Explain the FastTrack Deployment Methodology to the Customer
- ✓ Confirm that SFA can move to the Pilot Phase

Module 2: Planning the Pilot Phase

- ✓ Overview of the Pilot Phase
- ✓ Identifying Environmental and Software Prerequisites
- ✓ Planning for Pilot Users
- ✓ Planning for Pilot Users
- ✓ Planning for Team Collaboration
- ✓ Initial Pilot Requirements
- ✓ Confirming Browser, Operating System and Office Versions
- ✓ Select Pre-Pilot users
- ✓ Select Pilot users
- ✓ Plan Mail Connectivity and Social Network Integration
- ✓ SharePoint Planning
- ✓ Pilot Design

Module 3: Planning the Deploy Phase - Part 1

- ✓ Overview of the Deploy Phase
- ✓ Planning Service Selection
- ✓ Planning Networking and Domains
- ✓ Planning User Management
- ✓ Service Selection
- ✓ Networking and Domain Planning
- ✓ Identity Management Planning
- ✓ Password Synchronization
- ✓ Active Directory Issues
- ✓ Troubleshooting DirSync (Optional)

Module 4: Planning the Deploy Phase - Part 2

- ✓ Planning Email Migration
- ✓ Planning SharePoint Site Collections and sites
- ✓ Planning Lync Online
- ✓ Planning Office 365 ProPlus Deployment
- ✓ Fact Finding
- ✓ Summarizing the Exchange Online Options
- ✓ Planning Additional Factors for Exchange Online
- ✓ SharePoint Site Collections Planning
- ✓ Site Template Planning
- ✓ Lync Federation Planning

MOC 10968

Designing for Office 365 Infrastructure

- ✓ Office 365 ProPlus Deployment

Module 5: Planning the Enhance Phase - Part 1

- ✓ Overview of the Enhance Phase
- ✓ Planning Single Sign-On
- ✓ Planning Hybrid Exchange Deployments
- ✓ Identify Factors for SSO and Future SSO Requirements
- ✓ Identifying Hybrid Exchange Benefits
- ✓ Certificate Requirements
- ✓ Mail Routing

Module 6: Planning the Enhance Phase - Part 2

- ✓ Planning Exchange Online Protection
- ✓ Planning SharePoint Online Customization
- ✓ Planning Hybrid SharePoint Implementations
- ✓ Justify Use of EOP
- ✓ Configure EOP
- ✓ Plan SharePoint Development

Module 7: Case Study

- ✓ Scenario Information Delivery
- ✓ Initial Interview with the Customer
- ✓ Creating the Pilot Phase Design
- ✓ Second Interview with the Customer
- ✓ Creating the Deploy Phase Design
- ✓ Information Gathering for the Enhance Phase
- ✓ Creating the Enhance Phase Design
- ✓ Presenting Your Design
